1. DENMARK: Concern regarding defense reported--US Ambassador Anderson in Copenhagen reports that, during an extended conversation with Prime Minister Hedtoft, the Prime Minister reaffirmed his concern and anxiety regarding Denmark's security and defense needs. The Prime Minister considers that fear of war and uncertainty regarding Danish security provided by Western defense plans are "daily growing stronger" in the minds of the Danish people, who do not wish "to be occupied and later liberated." Partly as a result of this uncertainty among the Danish people, the Prime Minister feels that current Communist peace propaganda is having some effect.
